To Whom It May Concern

Subject: Drug/Alcohol Testing Program

Transport Canada has no policy on drug/alcohol testing in our industry. The FAA accepts Transport Canada regulations as per the Bi-Lateral agreement between Canada and the USA

Aero Recip (Canada) Ltd has a zero tolerance policy towards drug use, however, mandatory random drug/alcohol testing is difficult to do due to Canadian legislation.

If you have further questions you can contact Mr. Eugene Beauchemin, International Liaison Airworthiness FAA, at 425-227-2242.

John Morton
Director of Maintenance
